AMENDMENT IN RESPONSE TO OFFICE ACTION OF MARCH 19, 2008
APPL. No. 10/534,394
ATTORNEY DOCKET No. 0470.0011C (MSK0010-US)

Amendments to the Claims:

This listing of claims replaces all prior versions, and listings, of claims in this application.

Listing of Claims:

1-11. Cancelled.

12. (Original) A method of conditioning signal values being conveyed to a decoder in a

wireless-communications network participant, the method comprising scaling the values,

monitoring the probability distribution of the amplitudes of the scaled values and using the

information gained through the monitoring step to determine if the degree of scaling should be

adjusted.

13. (Original) A method according to claim 12, wherein the monitoring step comprises

calculating a complementary cumulative probability density function for a signal value

magnitude.

14. (Original) A method according to claim 12, wherein the monitoring step comprises

determining the fraction of a group of signal values that exceed a certain magnitude.

15. (Original) A method according to claim 12, wherein the decoder is a 3G

telecommunications bit-rate signal decoder.

16. (Original) A wireless-communications network participant, comprising a decoder for

decoding a signal received at the participant, a scaler adapted to scale values of the signal being

conveyed to the decoder, a monitor adapted to monitor the probability distribution of the

amplitudes of the scaled values and a controller adapted to use information supplied by the

monitor to determine if the degree of scaling should be adjusted.

2

Amendment in Response to Office Action of March 19, 2008 Appl. No. 10/534,394 Attorney Docket No. 0470.0011C (MSK0010-US)

- 17. (Original) A participant according to claim 16, wherein the monitor is adapted to calculate a complimentary cumulative probability density function for a signal value magnitude.
- 18. (Original) A participant according to claim 16, wherein the monitor is adapted to determine fraction of a group of signal values the exceed a certain magnitude.
- 19. (Original) A participant according to claim 16, wherein the decoder is a 3G telecommunications bit-rate signal decoder.
 - 20. Cancelled.
